

## Partial Index of Middle Indic Words

Here are included Middle Indic words referred to in the Dictionary, under the words cited, in so far as they might not be easy to locate without such a reference.

The great majority of Pali words cited, and many words from other Middle Indic languages, can be located by looking in the Dictionary under the words themselves, either in their Middle Indic forms, or in Sanskritized or semi-Sanskritized adaptations which will be obvious to anyone acquainted with Middle Indic phonology. Frequently representatives of both types will be found. Note that both must be searched for, if one wishes to know whether a given Middle Indic word exists in BHS; also that when a BHS word has a Pali correspondent, other Middle Indic correspondents are commonly *not* cited in this Dictionary. In the following Index, I have not included words of the type described in this paragraph.

### Pali

akasira-lābhi(n), akiccha°: akisara-lābhin  
akuppa: akopya  
akkanāla: aṅga-nāḍikā  
akkhohiṇi: akṣobhiṇi
